ZURICH
A SWITCH THAT ENLIGHTENS YOUR LIFE

ZEEON
s w i t c h

Innovative design can both be a break-through product or service,
and a redesign of an existing product or service.

A break-through product adds a before unseen value and function to the market
and the user, while a redesign improves an existing product.

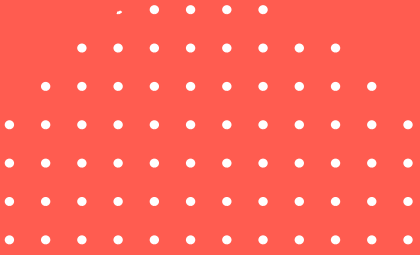

ZURICH
A SWITCH THAT ENLIGHTENS YOUR LIFE

ZEEON

Door Bells

A doorbell is a signaling device typically placed near an entry door to a building. When a visitor presses a button the bell rings inside the building, alerting the occupant to the presence of the visitor. Although the first doorbells were mechanical, activated by pulling a cord, modern doorbells are electric — they are actuated by an electric switch.
